

New in IPMB:

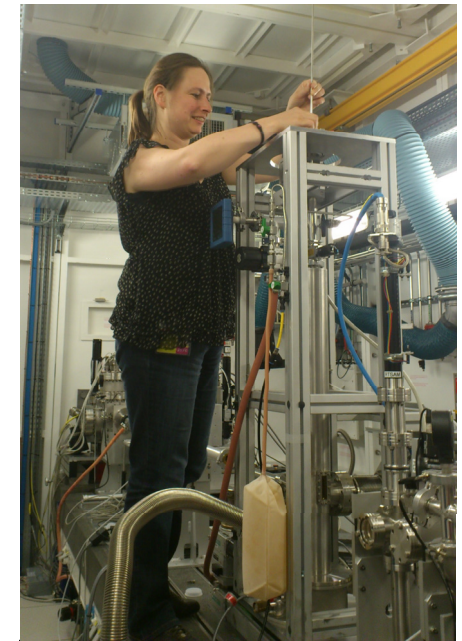

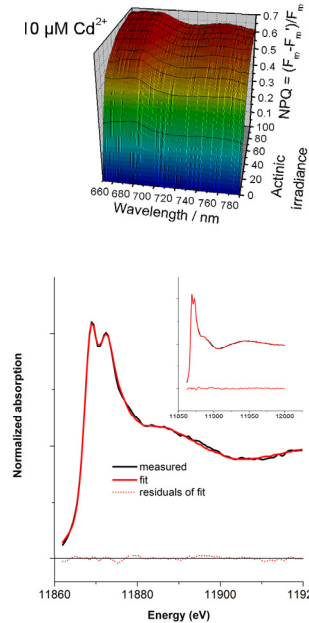

Department of Plant Biophysics & Biochemistry

Dr. Elisa Andresen
junior scientist
Elisa.Andresen@umbr.cas.cz

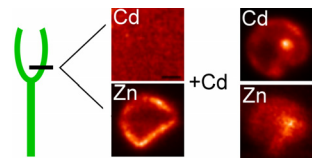

Prof. Dr. Hendrik Küpper
head of the department
hendrik.kuepper@umbr.cas.cz

Dr. Isabelle Lefevre
experienced scientist
Isabelle.Lefevre@umbr.cas.cz

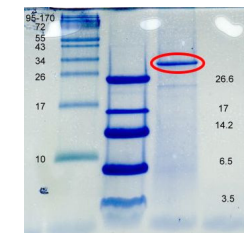

Dina Stanic
general technician
Dina.Stanic@umbr.cas.cz

We are interested in the physiology, biophysics and biochemistry (incl. molecular biology) of photosynthetic organisms (green/brown/red algae, terrestrial and submerged higher plants, cyanobacteria). The main focus is on metal metabolism (uptake, physiological use, sequestration/complexation, detoxification, toxicity).

Dr. Eva Chocholova
project manager
chocholova@hbu.cas.cz

You want to know more about us and our work?

Then have a look at our homepage http://www.umbr.cas.cz/~kuepper/AG_Kuepper_Homepage.html and come to visit us and speak with us on floor 3 of the Institute of Plant Molecular Biology
